## ACCOUNTING AND AUDITING

We are providing professional services to help individuals or businesses manage their financial information and activities. The goal of the services is to ensure accurate and reliable financial information that can be used to make informed business decisions.

We are also providing professional auditing services in accordance with International Standards on Auditing (ISAs) which typically involve an independent examination and verification of an organization's financial records, internal controls, and operational processes. The goal of auditing is to provide assurance to stakeholders that the organization is operating in compliance with relevant laws and regulations, and to identify areas for improvement.

- Accounting & Book-keeping Services Monthly/Quarterly/Yearly
- Updating Backlog Accounts
- Systematic Organization of Financial Records
- Accounting/Inventory/HR Software Solutions
- MIS Report
- Stock/Inventory Audit
